

Church Abuse, Drugs and E.C.T.

Description This autobiography is simple and touching and generous and the reader is left in disbelief at what Rosaleen has suffered at the hands of those who should have looked after her; family, church, hospital, state. Rosaleen throws a light on the experiences of many young women, hospitalised, alongside herself in last century Ireland, simply for being poor or for otherwise being inconvenient to church and state. About the Author I have been in receipt of trauma counselling since 1999 on a daily basis, at times speaking till the early hours of the morning. Support from my trauma Counsellor helps me to come to terms with accepting that what has happened to me cannot now be changed. I cannot ever forgive those who had a vicarious liability to look after me and failed. As a result of being locked away for some years all because we were poor has brought certain limitations to my day to day life. Writing is a form of therapy and allows me to be free to be the person that I want to be, and should have been my birthright. Through writing I can reach out to others who may have had such an unfortunate experience as myself. Daily flashbacks can be upsetting and I fill my life with things to do so as to block them out. Day to day life can be exhausting and coping mechanisms that I learnt in order to survive have not helped me in the outside world. God help all fellow survivors and perhaps one day Ireland will accept the terrible price we paid. Shame on all you right thinking residents in Ireland to allow the government and Catholic Church to ignore harm done to me and many others who are either dead or too ill to tell their story. Thanks to Chipmunk publishing I have been able to confront my demons and a Big Thank you to Reatha my trauma counsellor without her I would not be here today writing about my stolen life.

Sobre el primero de ellos, un libro, titulado: Los esenios, Qumrán, Juan Bautista y Jesús de Hartmut Stegemann (1), me aclaró bastante el personaje, pero me quedan varias dudas sobre el mismo. Cuando éstos pertenecían a la nobleza, era aún mayor el empeño por conservar esa condición de nobles hidalgos, y acreditarla debidamente mediante documentos, que la justificaran, para así transmitirlo a sus descendientes.
